|| CONSTITUTION OF VIDYA SANSKAR ||

In the name of grooming Indian International Leaders based on nationalistic roots, Indian values and philosophy for education.

Why do we need this nonsense?

Simply speaking, this one single governing document will bring all students, teachers and management on one page. It is not really new constitution in literal terms but purposely named so, for the sheer gravity and deep rooted importance that this document may have on school's learning environment and achieving mission.

First release: This will state agreements, values, student life and work culture ethics, which are in accordance to the mission . Once people are aware of the expectations and requirements it will compel them into behave in the acceptable standard behavior and will also make people accountable for the same.

Evolution to a "Vidya Shastra"

In 20 years time, this constitution document, will evolve, into a collection of thoughts, ideas, which will be unique to Vidya Sanskar school and will be like Shastra for grooming international leaders. A timeless, authorless, limit-less governing and reference document, which will evolve with growth of Vidya Sanskar.

This document should be continuously improved and updated with time. It describes what Indian and international values will be inculcated in leaders for
